

Evidence Case File

CASE No.

777 - 13

Case Description:

"Shipbuilding"

In Genesis 6:15, God gave Noah the exact dimensions of the ark he was to build. In 1609 in Holland, a ship was built after the same ark pattern (ratio of 30:5:3), which revolutionized the shipbuilding industry as it was determined to be the perfect ratio for huge vessels. By 1900 every large ship on the seas mirrored the proportions of the ark (verified by "Lloyd's Registry of Shipping" in the *World Almanac*). God truly is the Master Builder! This is amazing scientific evidence for the Bible!
